PROFESSIONAL SUMMARY

Full Stack Developer specializing in MERN stack with hands-on experience building end-to-end web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in RESTful API design, Redux Toolkit, responsive UI development, and Agile methodologies. A collaborative team player and problem solver dedicated to delivering high-quality solutions.

EDUCATION

BTech in Computer Science 2021 – 2024
APJ Abdul Kalam Technological University

Diploma in Computer Engineering 2018 – 2021
University of Kerala

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, Redux Toolkit, React Bootstrap, React Router

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Database: MongoDB, Mongoose

Tools: Git, Postman, Axios, Netlify

Methodologies: Agile

Soft Skills: Problem Solving, Team Collaboration, Time Management, Adaptability

EXPERIENCE

Full Stack Developer (Intern) Nov 2024 – Present
Luminar Technolab, Kochi

- Developed and deployed multiple MERN applications to enhance customer engagement
- Designed scalable RESTful APIs and optimized backend performance
- Managed frontend state using Redux Toolkit and React Hooks
- Collaborated with Agile teams and used Git workflows for timely delivery
- Built responsive UI components ensuring cross-device compatibility

MERN Stack Developer (Intern) May 2023
Futura Labs, Kochi

- Developed modular MERN applications with secure routing and REST API integration
- Implemented JWT-based authentication and optimized MongoDB queries

Tech Intern May 2021
Techmaghi, Kerala Startup Mission

- Assisted in software development projects using Android Studio and IntelliJ

PROJECTS

Eventara – Event Management Platform

Technologies: React.js, Node.js, Express, MongoDB

- Designed platform for event planning and management services
- Built UI for booking events like weddings, birthdays with JWT authentication
- Implemented RESTful APIs for dynamic data handling using MongoDB

MediaPlayer – Interactive Media Player

Technologies: React.js, React Router, React Bootstrap, Axios, JSON Server

- Developed responsive video platform with drag-and-drop category sorting
- Implemented CRUD functionality for video uploads and playback
- Automated watch history tracking with timestamp features

EKart – E-Commerce Platform

Technologies: React.js, Redux Toolkit, React Bootstrap, React Router

- Built e-commerce app with cart and wishlist management
- Integrated external REST APIs for product data
- Developed responsive UI ensuring seamless cross-device experience

Food Circle – Restaurant Finder

Technologies: React.js, Redux, React Bootstrap

- Created restaurant discovery platform with neighborhood-based search
- Used Redux Toolkit for state management and Axios for data fetching
- Implemented responsive design for multi-device experience
